EMPEROR WILLIAM NERVOUS AND IRRITABLE

He Gets Rid of Count Waldersee for Personal Reasons Mainly.

OTHER GERMAN ARMY CHANGES.

Bismarck Said To Be Creating Discord in the Triple Alliance.

DOPYRIGHT, 1891, BY THE NEW YORK ASSOCIATED PRESS.] BERLIN, Jan. 31, 1891 .- The resignation of Count von Waldersee from his position as chief of the general staff is not associated, as was reported. with his appointment as commander of the Ninth army corps, which was made vacant by the withdrawal of General Leczynski. Like the latter, Count von Waldersee retires from his position as chief of staff through his inability to agree with the Emperor. Members of the court and official circles are past being surprised at anything that may happen in the Emperor's administration.

General Leczynski six months ago was a favorite of the Emperor. He was almost appointed Minister of War. He was openly spoken of by the Emperor as among the most able of the German generals. General Leczynski a short time ago dined with Prince Bismarck. The next time he had to attend the Emperor was upon the occasion of His Majesty's recent visit to Cuxhaven. He was then treated with studious coldness, the Emperor affecting to be exclusively occupied with the attentions of the Hamburg officials and according the General only the curtest necessary notice.

WHY WALDERSEF GOES OUT. The causes of Count von Waldersee's retirement are repeated differences with the Emperor and Chancellor von Caprivi in regard to army questions. His unflinching adhesion to the set of ex-Court Chaplain Stoccker bas, however, irritated the imperial temper more than any military dispute. Count von Waldersec was present on Thursday at the annual meeting of the Young Men's Christian Association, in which Dr. Stoecker is a shining

the annual meeting of the Young Men's Christian Association, in which Dr. Stoecker is a shining light.

Besides these changes Minister Maybach has offered his resignation to the Emperor, but the impersal acceptance has been delayed.

General von Albedyil will retire from the command of the Eighth Army Corps on April 1 after in celebrates the jubilee of his entrance into the arms. Barcu Meerscheidt will also retire from the command of the guards and will be placed upon the superannuated list. The Baron's retirem in is the result of old age. General von Albedyil, however, is still fit forgood work. The Emperor's restless nature, spells of irritability and uncertain moods are due to physical causes, which make him a difficult master to serve.

The Pass states that Count von Waldersee desired to command an army corps. The Emperor in the meantime has given to him only the chain of the Order of Holphysoliern. His successor and chief of staff will probably be General von Haeselen, who has the highest reputation as a trategist. He was for a long time a member of the general staff before he went to Molt to a minimum the corps garrisoning Al-acc-lorraine. He is devoted to work and a ceuples the isolatou distinction in the army of never taking wins and very rarely emoking.

The Emperor s call a case concur in the opinion that it would be better for his Majest if he smootdless. Those in intimate contact with him find, without his being reality ill, plain signs of recurring nervous suffering. The court physicians have surougly advised him to cease the use of tobacco. The Emperor perceints in smoking a dozen huge cigars daily.

becco. The Emperor persists in smoking a dozen huge cigars daily.

The semi-official press make bilter criticisms and suggestions in regard to the visit of the Austrian Archduke Franz Perdiaund to the Czar. The Heistopp Nochroten, Frince Bemarck's organ, asserts that the Austrian government aims at a rapproachement with Eussia to the prejudice of Germany. It asserts that this intrigue has been proceeding since the diplomatic check Emperor William sussained in his interview with the Czar at Narva, and that emperor William, fraring he will lose his grip on Austria, has enered the latter a bribe in the shape of concessions in the pending freety of commerce on grain and cattle imported into Germany from Austria.

The North German Gazelle characterizes the statements of the Finnburger Nacorichen as Russophilo insinuations, and says they are full of disrespect to the Emperor.

indinations, and says they are full of disrespect to the Emperor.

The newspapers generally accuse Prince Bismarck of trying to create mistrust of the Triple Alliance in order to produce an international crisis, wasceupon he would again lift himself to the position of dictator.

The official Vienna papers deny both the Nach-richien's statements and Prince Bismarck's power to introduce discord in the Austro-German alliance.

Outside of officialism the controversy has produced the impression that the ex-hancellor in his hitterness of soul is ready to sacrifice his own work in the creation of the Triple Alliance to graffy his personal discontent and ambition.

Count lierbert lismarch arrived in Rome yesterday. He exchanged visits with Signor Crispl, the Italian Frime Minister, A Ministerial dinner will be given him by Signor Crispl on Monday. The ossets with the proposed to be in robust ealth when he left schemmed to be in robust ealth when he left Schosinhausen. It is surmised that he is an agent of his father in his projects to maintain personal relations with the leading statesmen concerned in the Triple Alliance.

FOREIGN WEATHER AND FORECASTS.

London, Jan 31, 1891—British harometric pressures are below normal, but rising decidedly in the English Channel, with southweaterly winds. The lowest pressure now reported from any quarter is 23,00 inches in a do sent the Atlantic, west of Ireland; the highest, San, on the south of Germany. Nearly stationary temperature and rain and snow now provail in the United Kingdom, with no marked barometric fluctuations of his father in his projects to maintain personal relations with the leading statesmen concerned in the Triple Alliance.

relations with the leading statesmen concerned in the Triple Alliance.

A WORLD'S PAIR IN REBRIES.

The publication in extenso by the Reichaunzeiger of an address by the rector of the Mechanical Academy advocating the holding of a world's exhibition in B-riin in 1896 has evasted a belief that the Emperor favors the project. The rector had several interviews with the Emperor before he delivered the iddress, and he received suggestions from His Majesty which were embodied in his remarks. Prince Bismack always opposed the holding of a world's fair in Berlin. The Emperor is ready to give the scheme close attention.

The Kreuz Zeiung announces that Emin Pacha will lead an expedition to the African lakes in place of Major Wissmann. Dr. Peters, the paper mass, will join the Emin expedition and will be escoted by a company of Major Wissmann's troops.

SHIPPING NEWS

OCEAN STEAMERS. DATES OF DEPARTURE FROM NEW YORK,
